Program

Morning

- 9:00** Welcome
- 9:25** Words of welcome
- 9:30** **Guilhem CHAUBET** - CNRS
Antibody-vincristine conjugates as potent anticancer therapeutic agents
- 10:05** **Éric SCHORDAN**
Firalis Molecular Precision
Development and setup of a custom CtDNA analysis solution for treatment monitoring
- 10:40** **Dominique BAGNARD**
Université de Strasbourg - INSERM
Peptidic modulator of transmembrane domain interactions as a «first in class» remyelinating agent
- 11:15** **Samuel CONSTANT** - Epithelix
Advanced in vitro human airway models for drug development for respiratory diseases
- 12:00** Lunch

Afternoon

- 13:00** **Thuy BOURGEOIS & Laurent Mallet**
Direction européenne de la qualité du médicament & soins de santé
Use of next generation sequencing for detection of viral extraneous agents
- 13:30** **Steven WINLING & Benoît HILBOLD** - Catalent
Unlocking the potential of poorly water soluble compound using lipid based formulation
- 14:00** **Charline KELLER & Pedro LOPEZ**
DDD Laureates 2023
Drug delivery of protein degraders in multiple myeloma : a single-cell proteomics approach
- 14:30** **Pualani ATENI & Khouloud CHTIBA**
DDD laureates 2023
Innovative approach against dengue infection : modulating inflammatory response and viral replication through PARP-1 targeting
- 15:00** Coffee Break
- 15:20** Challenge DDD 2025
- 17:00** Deliberation
- 18:00** Awards
